

A man and a woman are sitting at a desk in an office, looking at a laptop screen. The man is on the left, wearing a dark blazer over a light shirt, and is smiling. The woman is on the right, wearing a green jacket, and is pointing at the screen. The background shows a window with a view of trees.

ABOUT FINANCIALS

Gain powerful insights.

Get a deeper understanding of your company's health, speed up decision-making, and know where to focus your time.

With Financials, you can:

- Make more informed decisions with dashboards and insights into the metrics that matter to your business
- Gain powerful, analytics to understand snapshots of business performance or evaluate trends over time
- Forecast demand for resources and know when to anticipate receivables with connected sales and financial data
- Quickly track metrics and KPIs with custom scoreboards, even on mobile devices
- Build custom, robust financial reports for detailed financial reporting against the specific segments of your business

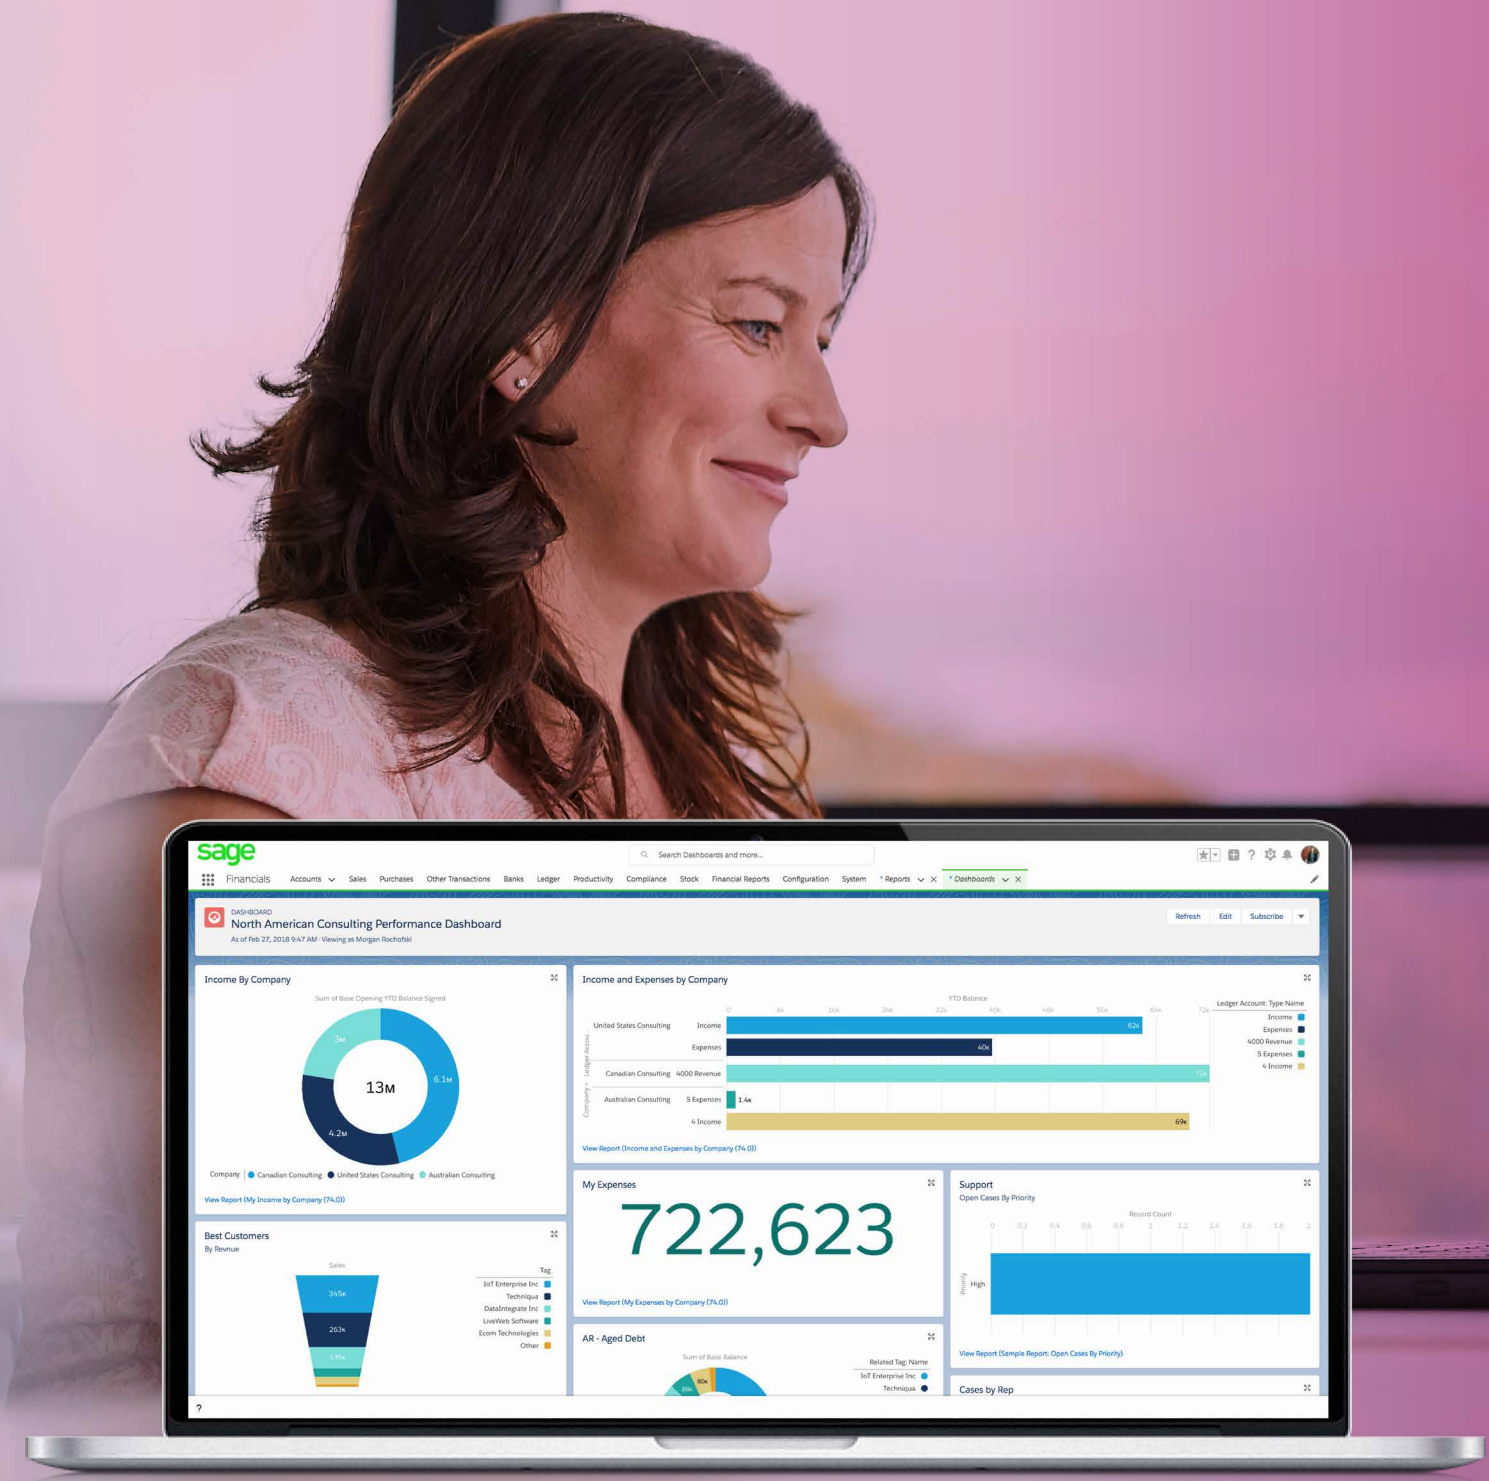

Drive simplicity.

Simplify the complexities of your business as it grows and expands.

With Financials, you can:

- Bring all of your financial applications together in the Salesforce App Cloud and connect to over 3,000 Salesforce cloud business apps
- Utilize multi-dimensional tagging and tracking, and eliminate the need for separate General Ledger account codes for each department, project, customer, or segment
- Aggregate transactions from your banks, credit cards, and mission critical business apps, and automate how they're categorized in your General Ledger
- Manage multiple companies, locations, and General Ledgers, while complying with local legislation requirements and transacting in local currencies
- Easily schedule and track recurring invoices and recognize revenue accordingly with advanced subscription management

Enhance productivity.

Enable your team to work smarter and more efficiently, while staying laser focused on what drives your success.

With Financials, you can:

- Run your team efficiently with productivity features that enable them to manage the day-to-day activities of your transactional team
- Evolve beyond the inbox to track tasks and events for customers, projects, and more
- Eliminate rekeying of customer and financial data, and instead add contracts from your phone or seamlessly find accounts from Salesforce Sales Cloud
- Generate invoices and accept customer payment before you leave a customer site
- Enable your field and sales teams to have inventory data at their fingertips as they generate sales orders

 strategic ISV partner

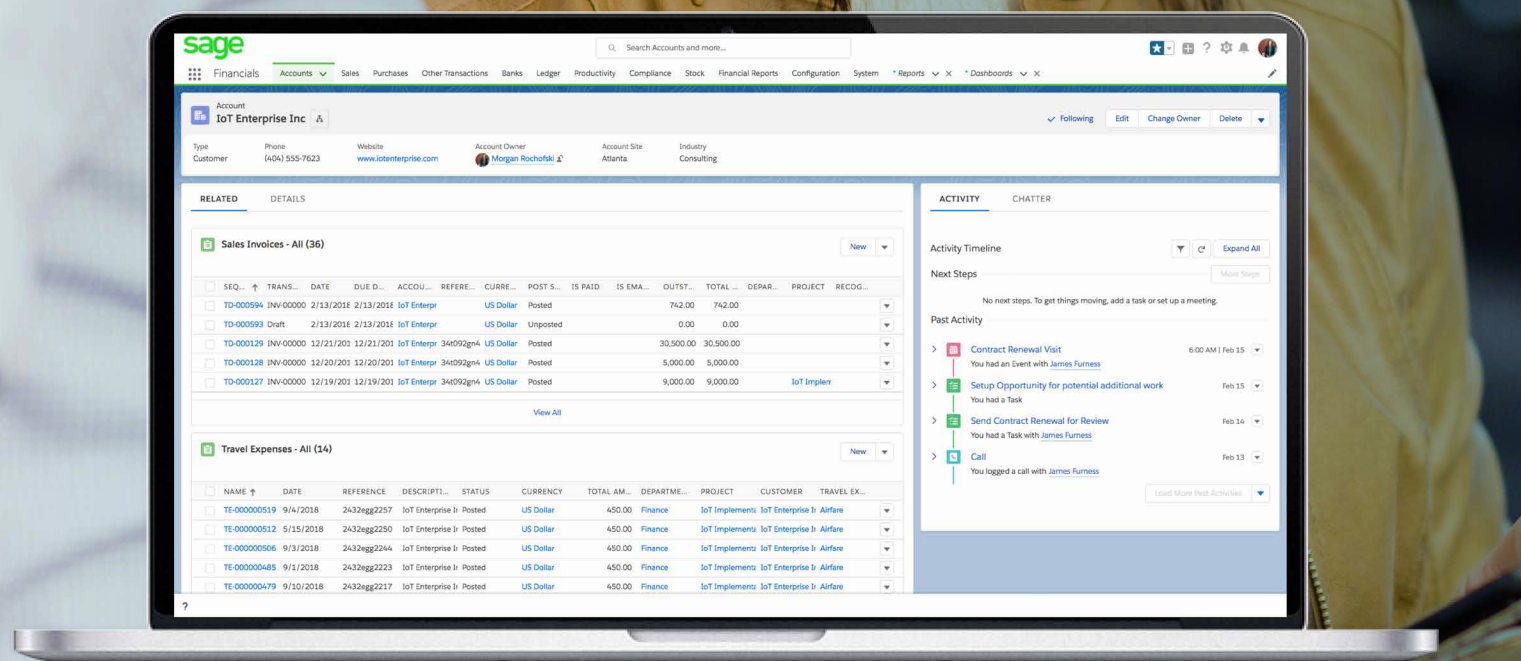

Improve collaboration and efficiency.

Implement a new way of working—easily and efficiently collaborate with your teams across digital platforms.

With Financials, you can:

- Align your team on a single view of the customer
- Control your entire business on the go with best-in-class mobile apps
- Focus your team on the KPIs you choose so they understand performance and can have proactive conversations about how to meet goals
- Collaborate with your team on a customer transaction or report with Salesforce Chatter in Financials
- Receive customer payments faster by enabling remote employees to enter expenses and submit invoices on the road

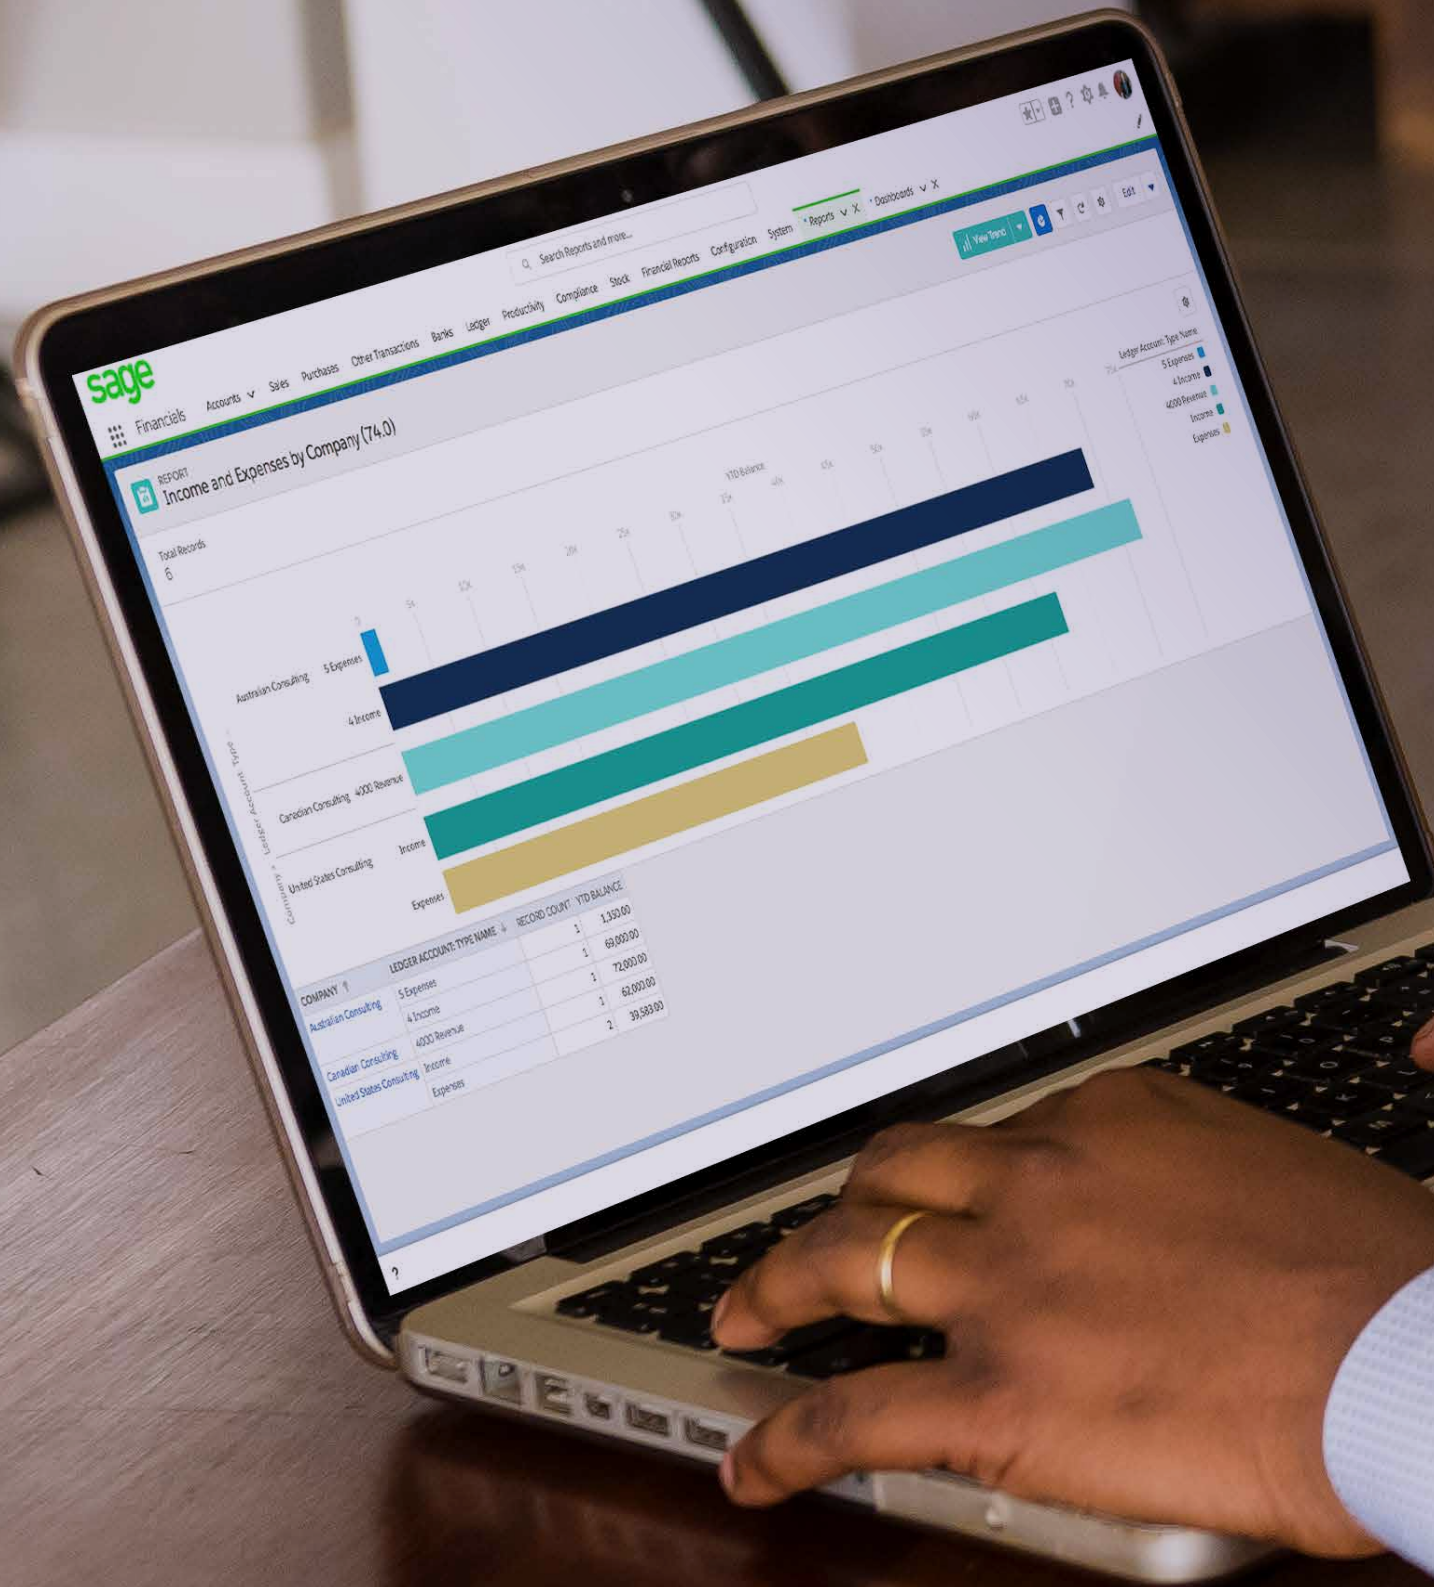

Instill confidence.

Gain financial certainty, ensure compliance, and know you're on the path to success with a partner you can trust.

With Financials, you can:

- Eliminate manual data entry and inaccuracies
- Easily build financial reports for your accountant, financial advisors, or board members to quickly spot issues
- Partner confidently with Sage, a champion of business builders for over 30 years that now serves over 3 million customers across 25 countries
- Operate efficiently with a global partner network and dedicated success coaches offering world-class support
